Villa Project of the Year 2025

Specifications

A: Multi-Layered Security

- 1:

CCTV
Surveillance is enhanced through a comprehensive Closed-Circuit Television (CCTV) system, providing vigilant monitoring.
- 2:

Boom Barrier
Controlled entry is ensured with the implementation of boom barriers, enhancing security measures.
- 3:

Access Control (VMS for the Society)
Restricting unauthorised entry, an advanced access control system is in place to ensure only authorised individuals get entry.
- 4:

Digital Door Lock
Cutting-edge security with digital door locks, fortifying the integrity of entrances.
- 5:

Network of Security Guards
A dedicated network of security guards further reinforces the safety infrastructure, providing a physical layer of protection.

B: Building Engineering

- 1:

Earthquake Resistant Structure
Our design adheres to Zone 4 standards, ensuring structural integrity and safety in seismic events.
- 2:

External Intelligent Lighting
Enjoy a timer-controlled external lighting system for enhanced energy efficiency.
- 3:

Aluminium Formwork Excellence
The use of advanced aluminium formwork ensures exceptional construction quality.
- 4:

Flexible Spaces
Minimized structural intrusion allows for clear room spaces, offering maximum flexibility in layout customization.

C: Technical Specifications

- Premium 3-bedroom with family lounge + 1 servant room, homes meticulously crafted for a refined lifestyle.
- Indulge in opulence with tile flooring in the living, dining and kitchen.
- Bedrooms exude elegance with laminated wooden flooring and complementing modular wardrobes.
- Experience culinary delight in a fully equipped modular kitchen featuring top-notch appliances - microwave, hob, and chimney.
- Enjoy climate control with HVAC air-conditioning system for the utmost comfort.
- Washrooms feature a touch of sophistication with glass shower partitions and convenient vanity.
- Step out onto expansive balconies adorned with toughened glass and MS railings, offering a panoramic view of luxury.
